1. What is the Solana Cannabis Growers Club and his purpose ?

The Solana Cannabis Growers Club is a Collection of 4200 Cannabis Pots NFTs With 100+ hands drawn traits. Each NFT is unique and comes with a membership to an exclusive Club & the Investment Plan in our Company.

Come share your passion for the Cannabis with our Private Club with endless benefits and utilities where The community will make all decisions. We want to anyone who always dreamed about having the opportunity to be an investor or an actor of the Cannabis Industry be able to invest with low investment and high rewards.

Our goal is to create a Company who will grow Cannabis Plants and export the harvest worldwide to generate benefits for our NFTs Holder. We want to weld the Cannabis Community with NFT Community to all being able to generate benefits while sharing our Love for Mary Jane.

The Cannabis is a wonderful plant with many different uses cases, but unfortunately this Market is Mainly handled by Big Groups.

We want to give the opportunity in priority to OG Growers to be able to be an actor of this Market and also live this adventure with us.

We will choose OG's to come with us creates the Company in Uruguay if they always dreamed about a life change.

SCGC Holders will have the possibility to be part of our Investment Plan in additions to the benefits they will receive from The Basic Staking System and the benefits generate by the Company.

Holders will have the possibility to become Plants Owners they will be able to see their plants growing in livestream 24H/24h until the harvest and after that they will be able to sell their harvest to generate additional benefits or getting their harvest shipped to them (depend on the country laws).

The Community will make all decisions in the Company and we will keep sharing everything with our Community to make them involved in the Company.

More details about the Farm at 4.3. Company Benefits.

2. The Solana Cannabis Growers Club origin.

Johnson is the Founder/Creator of SCGC. He was one of the best French Player in Warzone while smoking Weed. He has always been a Gaming/Cryptocurrency/Cannabis enthusiast. He was supposed to create a Company in Morocco but because of Covid the Tourism numbers drops he start to find another plan to create his company.

One day after watching Murder Mountain on Netflix. He starts to understand the problems that OG Growers were facing against Big groups in Cannabis Industry but Cannabis Culture was still a dream because he live in France where Cannabis is illegal. So he always had this little idea in mind.

He always knows the potential of Crypto/NFT World but he was not having enough knowledge to understand everything so he learns.

And he finally find a way to build his own NFT Collection to create his Company. Because investor of the Company will only be NFT Holders they will perceive Highest Rewards from the Company Benefits in additions to the Basic Staking System and the Investment Plan.

3.1. Phase 1 : Roadmap for the creation of the Company / First Harvest

Roadmap :

April : We will flight right after the mint to Uruguay to Join our Contact who will help us in the creation of the Company and the Culture.

May : We will set up the farm to be ready to plant Cannabis. This includes ordering materials. (Soil,nutriments etc...)

June : We will start to plant our Cannabis plants and we will take care of them everyday !

July : Plants are starting to have a nice size. They are growing.

August : The Flowers are coming we are getting closer to the Harvest !

September : We will start the harvest of the culture and we will choose some of our Holders to join us for the month of the Harvest ! We will reward them of course !

October : We will start to sell the Harvest and after that we will able to let you know how much the Community will perceive from the Benefits of the Company !

Our goal is to share all the Benefits of the Cannabis with a passionate Community.

We want to create passive Life Income for our Holders with a bridge between web3 assets and real life assets.

Project Cost :

40 000\$ company

80 000\$ Equipment

50 000\$ in Clone (20 000 plants)

54 000\$ in Land (9hectares)

32 000\$ in Electricity and Water for 4months

36 000\$ for 12persons during 4months and 9000\$ for 12 persons the during 1month harvest.

We will be able to produce ~6000KG of Cannabis

We can generate about 6millions in turn over based on a Cannabis average sale of 1000\$ / KG.

Total expenses: 301 000\$

Farm size can change depending on mint price. Greenhouse is planned but we will do max we can do with the funds from mint.

3.2. Phase 2 : Expand the Company WorldWide.

We planned to expand the Company has much as possible that's why we will create a contact with Holders who want to expand the Company in their town and we will find a way to work together and expand the brand to always create more passive incomes for our Holders.

We will find a way to work with anyone according to the law of their Country and we will also reward them for the passion and dedication they give to our Project and Company.

We will also have customers all round the world since our contact will share his buyers with us. He is currently selling to USA, Europe, Israel and more !

4.Passive Incomes & Perks

4.1. Basic Staking System :

We will implement Staking System on our Website and 75% of all SCGC profits generated by Secondary Market will be distributed to Holders via airdrops with \$SOL directly on their Wallet .

The other 25% of all SCGC profits will go to the Company Wallet to keep the Project evolving, making collaboration and also secure the income of the company.

For the Primary Sales :

90% of the money raised by the first sale will go in the Company Wallet
this Wallet will be used to fund all the expense to start the Cannabis Culture.

10% of the money raised by the first sale will go in the Community Wallet
this Wallet will be used to fund all the giveaway,games we will make for the community.

4.2. Investment Plan :

We are bringing you this Investment Plan to get you friendly with Cannabis Investment Plan as we planned to make it on our Company.

This Investment Plan have been tested and safe approved !

We will earn 5% from your deposit.

We will give this 5% Back to the community with Events/Airdrops.

Earn between 35%-60% Depend of the Harvest. More infos in Holders chat are ready for post mint.

4.3. Company Benefits :

Imagine a 22 acres Farm in Uruguay with 20 000 Cannabis Plants on it .

The farm will be able to produce 6000 kilograms of Cannabis.

The Harvest will make us generate around 6.000.000 \$ based on a low Cannabis selling price !

50% of the Harvest benefits will be redistributed to the community and the rest will be used to expand the company.

Biggest income Holders will perceive will be from the Benefits that the Company will generate after selling the harvest ! Staking & Investment Plan will also bring additional rewards.

Our Project wants to be as fair as possible between the Company and the Community behind it.

Cannabis is a wonderful plant with unlimited utilities and Big Groups make business hard for Cannabis lovers.

We have a contact who will allow us to buy one of his Company and a part of his Land so we will be close to his farm and he will be able to share all workers and equipment needed with us.

He is a Cannabis Grower and he owns :

- 1) 6 hectares outdoors with 20,000 plants.
- 2) 12,000 m² greenhouse with 10,000 plants.
- 2) 10,000 m² greenhouse with 10,000 plants.
- 3) a 2,000 m² dryer indoors with full equipment for remediation and trimming.
- 4) laboratory where we process with Full Spectrum and Isolated.

4.4. Perks :

- Company Royalties :

- Young Growers holding 1-4 SCGC NFTs will earn 8% from the Cannabis Growers Company benefits distributed to their Wallet.

- Exclusive WL for a Giveaway after the mint.
- Permanent 15% Token multiplier from Secondary Market Rewards.

- OG Members Perks:

- Priority opportunities for the OG members to come with us in Uruguay.
- Exclusive Giveaway access.
- Permanent 19% Token Multiplier from Secondary Market Rewards.

4.5. Specifications :

Innovation : We will create the bridge between web3 and Physical assets to generate different ways of income for our Holders.

Unique : This is the only project where mint funds will be used to create a Physical Cannabis Company.

Community : SCGC will regroup OG Cannabis users from the entire world and we will be able to use the strength of the Community to keep expanding the Company. Since SCGC Team is Holding assets in different metaverse we will be able to create Digital & Physic meeting !

Long-term : Don't get involved with the hype, choose longevity. The SCGC is a project designed to evolve and continue innovating in the future. Some time will be needed to create the Company.
